August 2021

In this brutally important work, Clark dissects the deep impact of the 1903 Supreme Court ruling that solidified the U.S. Congress' plenary stranglehold on Geo-politically Sovereign Aboriginal Nations.

Clark efficiently outlines the gross Anti-Constitutional breaches of our own Laws in order to "legalize" illegal theft and exploitation.

Sobering in its revelation of truth, it simultaneously inspires us to manifest restoration of First Nation Rights in the U.S. Constitutional system, as a greater means to restoring the integrity of our venerable Original Intent that is still preserved in "the Supreme Law of the Land" (the U.S. Constitution of 1789 and our Original Treaties, per Art. 6, Cl. 2) – the only clear, honorable, and legal relationship model.
