

BIBI: My Story

© 2022 by Benjamin Netanyahu

I can think of no better or more timely book on Leadership than this real-time Autobiography of the gritty and sagacious "BIBI", Israel's iconic public servant just now commencing his 6th term as Prime Minister of the 'JEWEL OF THE LEVANT' that he has built into a force for innovation.

"BIBI: My Story" exceeds every expectation.

Always keenly aware of how Israel's renaissance in the 20th century was a fulfillment of Biblical prophecy carried out by warriors walking in raw Faith, Netanyahu courageously and often fiercely refuses to settle for his Nation's challenged existence: the man stands resolutely on those 'still-in-play' prophecies in order to launch "START-UP NATION" into a position of hard-fought and much-deserved Global Leadership in authentic democratic diplomacy, intrepid military security, and visionary technological advantage.

What's more, BIBI's actions, in the relentless face of absurd media attacks, speak volumes about the true character of the man and his People. In the late stages of the first quarter of the 21st Century, his indefatigable outreach is invigorating as it awakens the rest of the world to "what Israel can do for them".

Israel, under Netanyahu's leadership that spans 4 decades, IS THE paragon of true and durable prosperity; economically, ecologically, socially and Spiritually.

Small in size (8,000 square miles) and scale (8 million people), Israel is big in Life in no small part because BIBI is a Giant Thinker **AND** Doer.

From heartfelt recounts of his immediate family's roots in early-20th Century Zionism, to his dynamic early 21st Century achievements for Peace & Prosperity, Netanyahu brilliantly used his recent 9-month hiatus from political office in 2021 to craft not just an epic memoir, but to forge a veritable playbook for "**WHAT COMES NEXT**".

On a personal note, the author of this Review placed Netanyahu on the Board of Directors of his international pureTECH corporation during that recent political 'sabbatical'. Reading "BIBI: My Story" emphatically confirms that selection and sets the unprecedented stage for the miraculous and prophetic TRI-vergence of:

(1) Netanyahu's Israel + (2) Buterin's ETHEREUM + (3) Smith's ConcentricDAO.

As BIBI so aptly quotes Theodor Herzl, the iconic pioneer of modern Zionism {from 'The Jewish State', 1896}:

"The Jews who wish for a State will have it. We shall live at last as free men on our own soil. The world will be freed by our Liberty, enriched by our Wealth, and magnified by our Greatness. Whatever we accomplish there for our own welfare will Powerfully Benefit ALL of Humanity."
