

#1) What's CONCENTRIC's greenTECH all about?

Concentric Industries is the product of over 3 decades of hands-on engineering optimization of how we steward natural resources, generate electricity, purify water, cultivate food, process waste, and clean the air.

Hundreds of successful plant operations, and tens of award-winning projects have been coalesced into twenty (20) American and International patents that truly “Represent the Future of Energy, Food, Air, & Water for the Whole World”™.

We have four (4) main subsidiary groups, each wholly owned and exclusively licensed for the EFCOM (Engineering + Funding + Construction + Operations + Maintenance) of real “Brix and MohrTAR”™ installations of our avant-garde, proven and durable technologies.

- (1) NAUTILUS ENERGY ALLIANCE**
- (2) KALOS FOOD HOLDINGS**
- (3) COGENCY SYNDICATED, and**
- (4) KAIROS + HEALTH, MEDICINE & JUSTICE (PHILANTHROPIC)**

THE MAWCWE INSTITUTE (an acronym for **Medicine + Agriculture + Waste Conversion + Air + Water + Energy**) has also been established as an internal, strategic “how to” training center for educating employees and any interested people about Concentric's advanced and continually advancing “Applications of Natural Science to Achieve Social Justice”.

THE HALLMARKS OF CONCENTRIC ARE (A) ZEROEMISSIONS™ POWER GENERATION FROM A VARIETY OF EVERYDAY FUELS AND WASTES THAT IS (B) WHOLLY INTEGRATED VIA ADVANCED COMBINED HEAT, POWER & COOLING (CHPC) TECHNOLOGIES TO OPTIMIZE VERTICAL FARMING (VF) / CLIMATE CONTROLLED HORTICULTURE (CCH) IN ORDER TO PRODUCE QUALITY, HEALTHY FOODS-OF-CHOICE USING 97% LESS LAND AND WATER THAN THE WORLDS STAU-S-QUO METHODS, AND COMBINING 'A' & 'B' IN ORDER TO FOSTER DURABLE ECONOMIC ABUNDANCE + ECOLOGICAL STEWARDSHIP.

#2) How does CONCENTRIC's business model translate to Social Justice?

We believe that meeting peoples core physical needs is just the start. That pursuit must be environmentally responsible in order for it to be sustainable. Only when Economics AND Ecology are mutually served can this result in Social Justice + Spiritual Freedom.

Only then are we able “2S.E.E.”™ the Bigger Picture and proclaim totalPROSPERITY™ for People AND the planet.

[“2.S.E.E.”™ = Economic + Ecologic + Social + Spiritual]

By actually resolving serious global problems as our core work itself, we are more than just a successful company donating profits to charities – we are like a Tsunami of Spectacular, or an Avalanche of Awesome, that exponentially annihilates the 'lie of lack' with TRUTH OF ABUNDANCE.

ConcentricDAO is the Vanguard of Common Wealth.

#3) What is the market scope of Concentric's technologies?

We have negotiated over \$200 billion USD in contracted deployments of our cleanTECH systems across all 7 Continents on our way to reaching our multi-trillion (US Dollar) global market potential valuations.

“The 70's on The 7C's”™ describe *The Seven Optimizations™* (the core patents of the Nautilus Energy Alliance) contracted for deployment on all Seven Continents.

Each of *The Seven Optimizations™* is a patented and proven method for the comprehensive, zeroEmissions and totalConversion of specific, everyday fuels or wastes into valuable Energy (Electrical & Thermal), sustainable Foods, purified Water, and clean Air.

1. HELIX / coalZERO®
2. L.I.G.H.T. /geothermal
3. Sylvan Xylem / woody biomass
4. Stewardsmith™ / livestock manures & food processing wastes
5. Bushnell Scientific / oil & gas Combined Heat, Power & Cooling (CHPC)
6. ATLAS / scrap tires
7. KEMIYA / garbage & sewerage

KALOS FOOD HOLDINGS' CAPITALIZES ON THE **NAUTILUS ENERGY ALLIANCE'S** LOW-COST-ENERGY PRODUCER PERFORMANCE IN ORDER TO SIMULTANEOUSLY OFFER LOW-COST-FOOD PRODUCTION VIA ITS 2 MAIN BRANCHES: **(1) AUROS LAND + CATTLE COMPANY**, FEATURING THE *“SUSTAINABLY-OPERATING SELF-CONTAINED OUTPOST”®* - 'DAIRY OF THE FUTURE, TODAY,™ & **(2) PHAROS MARINE + FISH COMPANY**, FEATURING *AQUAZOE®* ADVANCED INTEGRATED AQUAPONICS™.

COGENCY SYNDICATED rounds out the world's leading scope of cleanTECH by integrating a full gamut of renewable Natural Sciences:

- <1> A.I. = Apiculture Integrated (BeeKeeping)
- <2> M.D. = Mycological Dynamics (Restorative Application of Fungi)
- <3> P.V. = PhytoVoltaic (SOLAR POWER)
- <4> A.D. = Aeolian Diamond (WIND POWER)
- <5> I.D. =Integral Derivatives (Optimization of Agricultural Residuals)
- <6> P.R. = Photosynthetic Regeneration (CO₂ Sequestration & Conversion)

As an example of CONCENTRIC's *'No Waste Wasted'™* moniker, consider the Credo of KEMIYA as manifest in it's multi-faceted benefits:

Credo KEMIYA: changingMATTER™

- 1/ elimination of landfills, waste-derived odors & groundwater leaching
- 2/ purification of sewage & septage, solid & liquid wastes
- 3/ sterilization & totalCONVERSION™ of garbage (Municipal Solid Waste, MSW)
- 4/ prevention of eutrophication (oxygen depletion) of our natural waters
- 5/ zeroPOLLUTION: neither Air nor Wtaer
- 6/ sustainableENERGY™: Electrical + Thermal (Heating & Cooling)

KEMIYA alone promises to revolutionize how civilizations steward their wastes.

#4) Who will Design, Build, & Operate the Equipment?

We will. Concentric's founders are experienced engineers and project managers with decades of leadership in industrial construction and plant operations.

This is what we do every day.

As innovators who encourage team members to “Stand On The Shoulders of Giants”, our ingenious founders challenge us daily: “Just because this is state-of-the-art now, should never keep us from discovering better ways of doing things tomorrow.”

We are a bona fide “Brix & MohrTAR”™ company that has converged into the Ethereum State to efficiently make our world-class products available to the whole world.

#5) How long has CONCENTRIC INDUSTRIES been around?

Although the corporation was initially structured in 2012, the genesis of the business strategy was in 1990 at Oregon State University in Corvallis under the leadership of the late and world-renowned Dr. Dwight Bushnell, Professor, Department of Mechanical Engineering.

Dr. Bushnell's relentless pursuit of thermodynamic efficiency inspired the ongoing quest for finding better ways of doing things that defines ConcentricDAO.

After 3 decades of Innovation and Worldwide installations and Operations, the Leadership of ConcentricDAO is ideally poised to define and dominate the future of authentic cleanTECH for all people and the planet.

#6) How long does it take to start making money?

As a rule-of-thumb, it takes about 12-36 months to license, build and commission any given project, and about 12-36 months of operations to achieve Simple Payback.

Within these asset-rich industries, those Return On Investment (ROI) rates between 24%-72% are outstanding, especially for plants that typically have life-cycles on the order of 40 years (by which time new equipment can be inserted into the next-generation upgrades to carry on the profit generation).

We do all legal and licensing work 'in-house' and our team of regulatory experts is proud of our 100% Approval Rate on EVERY permit we've ever applied for.

Because our engineering solutions are the cleanest in the industry, regulatory agencies welcome our applications – in fact, many have recommended to their authorities that CONCENTRIC Performance Metrics become the new environmental Standard for vanguard, ultra-clean, true ZeroPollution production of pure Energy, Food, Air, & Water.
